NEWS RELEASE

Sacramento County Coroner and Sheriff's Department Seek Public's Help to Identify 2008 Homicide Victim

Facial reconstruction of victim created by FBI to assist investigators

The skeletal remains of a homicide victim found in the rural delta area of Sacramento County in March 2008 remain unidentified. A three-dimensional facial reconstruction model was recently made by the Federal Bureau of Investigations (FBI) Laboratory Services to assist investigators with the identification.

Go to the Coroner's website (www.coroner.saccounty.net) to see a photograph of the model as well as a previously created forensic sketch and additional demographic information about the victim and case circumstances (reference case number 08-01866).

Anyone with information about this case or the identity of the victim is urged to contact the Sacramento County Sheriff's Department Homicide Bureau at (916) 874-5057 or the Sacramento County Coroner's Office at (916) 874-9320.

It is the duty of the Sacramento County Coroner's Office to identify and determine the cause and manner of sudden and unexpected deaths, and to investigate deaths that occur under violent or suspicious circumstances. Visit the Coroner's Office online at www.coroner.saccounty.net or call (916) 874-9320.
